

Varun Ergurala

FRONTEND WEB DEVELOPER | React js | Next js

+91 8177836651 varunergurala9999@gmail.com varun (LinkedIn) Varun8177 (Github) varun (Portfolio)

PROFESSIONAL SUMMARY

Frontend Software Engineer with 2+ years of experience building scalable, responsive web applications across fintech, government, and real estate domains using React.js and Next.js. Experienced in delivering production-grade systems with strong expertise in performance optimization, role-based access systems, and secure workflow dashboards. Proven track record of improving code quality using SonarQube, ESLint, and modular component architecture while collaborating in Agile/Scrum cross-functional engineering teams.

TECH STACK

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Material UI

Libraries & APIs: Redux, React Query, Socket.IO, Mapbox GL, Google Maps API, Highcharts, Axios

Developer Tools: Git, ESLint, XO, SonarQube

WORK EXPERIENCE

Frontend Software Engineer

Quara AI Tech

Remote

9/2025 - 12/2025

AI-driven real estate and property management platform company.

- Developed **Wasalt real estate platform** using **Next.js** with **map based property discovery**.
- Implemented **multilingual support** (English & Arabic RTL) improving accessibility for **international users**.
- Built analytics dashboards visualizing **10K+ property listings** using Highcharts, improving market insights for agents.
- Improved **UI responsiveness and performance** across mobile and desktop devices.
- Collaborated with backend engineers to integrate **REST APIs** for **property data** and **search functionality**.

Frontend Software Engineer

MoneyMul Technologies Private Limited

Noida

04/2024 - 09/2025

A fintech company focused on digital payments and financial workflow solutions.

- Built and maintained a **reusable React component library** used across fintech modules.
- Developed secure **role-based dashboards** for financial operations, billing systems, and payment workflows.
- Implemented **Aadhaar-based eSign and virtual stamping workflows** for the eSignPro digital signature platform by **protean**.
- Contributed to **PAN 2.0 government platform** UI modules including wallet management, invoice systems, and document verification.
- Reduced **duplicate code to 5%** and achieved **SonarQube A grade**.
- Integrated **real-time notifications** using Socket.IO to enhance platform interactivity.
- Collaborated with backend and QA teams to deliver **production-ready features in agile sprints**.

SDE-Intern

Masai School

Bengaluru

09/2023 - 03/2024

A reputed coding school providing full-stack web development education

- Integrated **real-time notifications** using Socket.IO
- Contributed to building an **alumni portal** platform for student engagement

PROJECTS

Wasalt – Real Estate & Property Management Platform

- Built **map-driven property discovery** with real-time geolocation, advanced filtering, and 10K+ property listings.
- Implemented **multi-language support** (English & Arabic) with full RTL compatibility for international markets.

eSignPro by Protean (Live in Production)

- Production-grade platform developed by **Protean eGov Technologies** enabling secure **Aadhaar-verified e-signatures and eStamping** workflows for government-compliant document processing.
- Followed component-based architecture ensuring clean, reusable, maintainable code across complex document flows.

PAN 2.0 (Delivered for Government Review)

- Developed UI for **role-based dashboards**, approval flows, and wallet/billing systems with full authentication and route protection.
- **SonarQube A grade:** 5% duplicate code, 0% reliability issues, 0% maintainability issues, 0 security hotspots.

EDUCATION

Bachelor of Computer Applications (BCA) Amity University Online	Noida 06/2025 - present
Full Stack Web Development (Full Time) Masai School	Bengaluru 07/2022 - 05/2023
Higher Secondary Education Vidya Niketan Jr College	Chandrapur 06/2020 03/2022

CERTIFICATIONS

Full Stack Web Development - Masai School 

Completed an intensive, industry-focused program covering JavaScript, React, Node.js, and modern web development practices.

LANGUAGES

English, Hindi
